### **DETAILED ACTION**

1. Claims 2-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As per claim 5, the recitation "a plurality of processors and a plurality of nodes", lines 1-2, is indefinite as to what "a plurality of nodes" are and how they relate to "a plurality of processor. In lines 6-7, it is also indefinite as to what "divided matrices subarrays" are assigned to; and in line 10, it is unclear what it means by the expression " $\text{mod}(m-1,n)+1$ ". Further, the recitation "diagonal blocks  $A(\text{nbase:nbase}+m, \text{nbase:nbase}+m)$ " line 13 is indefinite since  $A(\text{nbase:nbase}+m, \text{nbase:nbase}+m)$  in a single diagonal block. The value of "nbase" is also unclear. Further, "the allocated block", lines 19-20, lacks a proper antecedent basis. In addition, it is indefinite as to what is the intended result to be produced by the claimed invention. Clarification is requested. Claims 6 and 7 also have the same problems.

As per claim 3, the recitation "computing a row block" is indefinite. Noting that there only narrow blocks and diagonal blocks recited in claim 5.

2. Applicant's arguments filed 03/30/2009 have been fully considered but they are not persuasive with respect to the rejection under 35 U.S.C. 112, second paragraph for the reasons set forth above.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
